

You're Invited

OAKWORKS® Marina wet table is making its debut
at ISPA in Las Vegas

November 6th & 7th 2006.
Come and visit us at booth #131.
See what all the excitement's about.

Not going to ISPA? Don't want to wait until then?
Here is your formal invitation to come to OAKWORKS® facility in southern
Pennsylvania to get a personal preview of this revolutionary beauty that is
OAKWORKS® Marina.

You can order as early as October for December delivery

Introducing The Marina™

Where water, function and beauty meet: Revolutionize the way you think about wet tables forever. Marina™ is the market's first heated wet/dry table, offering the perfect balance of functionality, aesthetics, and durability. Its proprietary soft top features an innovative warming component in the torso section, a super comfortable top, and OAKWORKS®' famed durability. And, Marina's™ sophisticated teak design offers a natural beauty that is the perfect compliment to today's wet rooms.

Marina™ Innovative Features

- ☞ Marina's™ soft, supportive padding is the most comfortable available, offering unbeatable relaxation and treatment versatility.
- ☞ The unique recessed section supports both wet and dry heated treatments. A variety of heating mediums can be used, including Fomentek™ bags filled with warm water, or other heatable packs. Practitioners have free access to clients without the "gutter" systems that impede hands-on treatments.
- ☞ Specially developed 100% PVC-free fabric is soft to the touch yet strong enough to hold up under heavy use with mud, seaweed, and salt treatments.
- ☞ Choice of wet-room safe battery-powered electrical lifting system or manually operated hydraulic system with fold-away handle. Both offer quiet, strong, and effortless height adjustability.
- ☞ 31" wide, 72" long, with a 25"-34" height range

Marina Package

- Fomentek Bag
- Wet Drape
