

## Marina™ Wet/Dry Table

Where water, function and beauty meet: Revolutionize the way you think about wet tables forever. Marina™ is the market's first heatable wet/dry table, offering the perfect balance of functionality, aesthetics, and durability. Its proprietary soft top features an innovative warming component in the torso section, a super comfortable top, and OAKWORKS®' famed durability. And, Marina's™ sophisticated mahogany design offers a natural beauty that is the perfect compliment to today's wet rooms.

Marina's™ soft, **SUPPORTIVE PADDING** is the most comfortable available, offering unbeatable relaxation and treatment versatility. The unique **RECESSED SECTION** supports both wet and dry heated treatments. A variety of heating mediums can be used, including Fomentek™ bags filled with warm water, or other heatable packs. Practitioners have free access to clients without the "gutter" systems that impede hands-on treatments. The Revolutionary **TERRATOUGH™** fabric is an earth-friendly upholstery, made from environmentally friendly, **PVC-FREE** premium polyurethane. It is strong enough to hold up under heavy use with mud, seaweed, and salt treatments, yet soft to the touch.

**ELECTRIC LIFT:** Wet-room safe battery-powered electric lift system offers quiet, strong, and effortless height adjustability, stainless steel base adds unbeatable strength and durability.

**AQUEDUCT™**, an optional water collection system, offers: 1) Effective collection of water, mud, and scrubs that directs overflow to the floor drain and is easy to clean; 2) Excellent ergonomic positioning for therapists and a higher likelihood of hands on therapeutic benefit for clients. 3) Safer, easier, and more comfortable table access for clients.

RECOMMENDED ACCESSORIES

Wet Bolsters

Fomentek Bag

Waterproof QuickLock™  
Face Rest

OAKWORKS® is a sponsor of the ground-breaking movement; Green Spa Network. The purpose of the Green Spa Network is to bring sustainable operating practices to the spa industry, and to promote the natural connections between personal wellbeing, economic sustainability, and the health of the planet.
